

DMCU uses Alloya Corporate Federal Credit Union to receive our incoming wire transactions.

You should only use instructions received directly from a trusted credit union employee. Our wiring instructions rarely change, and you should never use wiring instructions that are different from those listed below, or ones that do not contain our security watermark, which contains our phone number.

The credit union only accepts domestic wires.

Give these written instructions directly to your sending financial institution. All 3 steps must be included in the wiring instructions to ensure proper credit.
